

BATTERY SERVICES:

POWERCARE

INDUSTRIAL POWER SOLUTIONS

Interstate's PowerCare division provides power systems with reliable 24-hour support for the major industrial markets of critical and motive power. Services include engineering, installation, testing, PM programs and supply for forklift, UPS, telecommunications and switchgear applications.

CRITICAL POWER SOLUTIONS

With PowerCare, you'll have peace of mind. Our team will evaluate your requirements and environment to engineer, provide and install the best backup power system—one that works when you need it the most! Partnering with PowerCare affords you improved system reliability, reduced battery failures, increased battery life and reduced maintenance and operating costs. That's why industries like cable, petroleum refining, nuclear power, telecommunications, utilities and the military rely on us.

MOTIVE POWER SOLUTIONS

Get the most out of your equipment with PowerCare's motive solutions. We offer a full suite of products and service solutions to help meet your power demands. Whether you're operating sit-down rider forklifts, walkies, or narrow-aisle lift trucks we'll keep you up and running.

We can also maximize your batteries and chargers' potential with PowerCare's preventive-maintenance program to help you detect problems before they result in serious safety issues or downtime.

EVERY BATTERY FOR EVERY NEED®
